MOLD/MILDEW RESISTANT	Yes
R VALUE	0.43
ITEM NUMBER (UPC)	733074275172

**Based on a specific Floor/Ceiling Assembly*

INSTALLATION:

- Lay over dry, clean and level sub-floor, plastic side down.
- Point the self-adhering strip next to the wall, and then unroll the underlayment with vapor barrier (plastic side) facing down.
- Roll the foam out completely, with the next row butting up to the foam from the previous row.
- Remove tap strip and place overlapping plastic film over the exposed strip creating a moisture barrier.
- Any tears in the foam should be taped creating a moisture barrier.
- After all underlayment is laid, install your floor according to manufacturer's instructions
