

No 6300 Outdoor Rubber Stair Treads

Our No. 6300 Outdoor Rubber Stair treads are manufactured with a special compound for exterior applications. The raised diamond design surface is 8" deep with a 3" smooth back. In- stall with Musson No. 775 Epoxy Adhesive. No. 6300 treads are available in square nose only; treads are 12" deep with a 1-9/16" long nose. No. 6300 treads are the only rubber treads we recommend for exterior applications.

Select from standard lengths of 36", 42", 48", 54", 60", 66" or 72". Available in Plain Black only.
